

 Process Fusion 360

Mobile Printing

Workflow
 **Re:magined**

The Modern Document Workflow Experience

Scanning or printing on-the-go has long been a challenge for organizations needing a secure, reliable way to manage confidential information.

The PF 360 Mobile app extends the power of the Process Fusion 360 platform, helping businesses streamline how they handle documents, printing, and digital data—all from a mobile device.

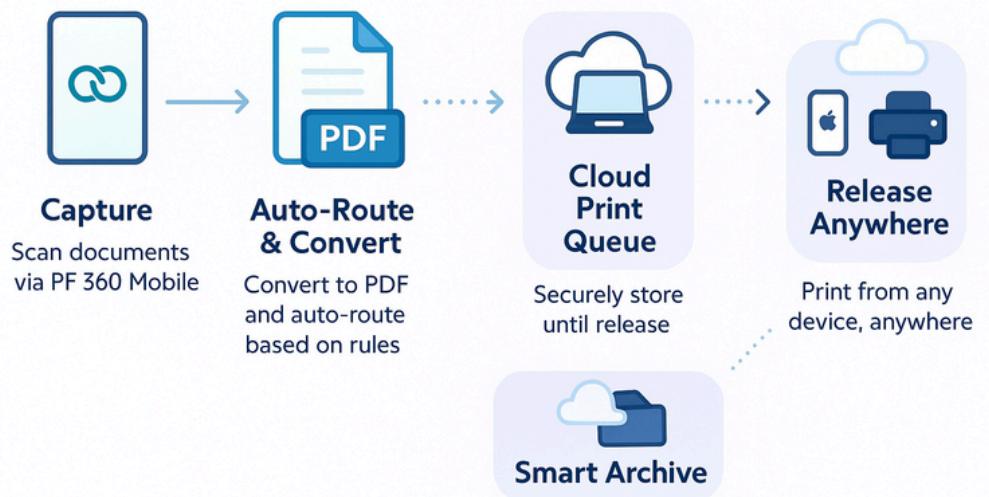

With the mobile app, users can securely scan documents to a designated cloud repository or send them to a secure print queue for on-demand release.

Seamlessly Scan Documents On-The-Go

Quickly scan physical documents using your phone. Instantly convert them into PDFs and send them to a specified or pre-configured cloud repository.

Securely Print Documents On-Demand

Send print jobs to your secure cloud-based queue and release them anytime from any authorized printer using secure password or mobile authentication.

Key Benefits

Seamless Scanning

Quickly scan documents from your phone to the cloud or secure print queue.

Effortless Printing

Release jobs on demand by authenticating from your mobile device.

Flexible Access

Print from any connected device—whenever and wherever you choose.

Less Waste, More Control

Prevent unclaimed prints and reduce paper waste with user-controlled release.

Smart Archiving

Invoices are stored securely, then converted into searchable, tagged PDFs for compliance.

Features at a Glance

- Scan to destinations like Google Drive, OneDrive, Fax, Email, SecurePrint and PF 360 Capture queues.
- Save multiple printing and release locations for convenient home and office use.
- Create and reuse personalized scan workflows with profile-based settings.
- Integrated sign-in with Microsoft (Azure AD), Google Workspace, Okta, and native login options.
- Save frequently used printers for faster, more efficient printing.
- Release SecurePrint jobs via NFC tags, iBeacon, QR code, or one-time passcodes.
- Send documents directly to SecurePrint, Gateway, Fax or PF 360 Capture queues with ease.
- Supports biometric authentication for added security.
