PF 360 Mobile

∞ Process Fusion 360

What is it?

01

PF 360 Mobile is an app for iOS and Android that allows you to release SecurePrint Jobs and scan documents with your device.

02

How does it work?

To release print jobs, simply scan the QR code on your multi-function printer or vPad Pro2. You can also use the in-app camera to scan and convert documents to PDF and then email, fax, or send them to another location.

Why PF 360 Mobile?

03

The PF 360 Mobile app is perfect for secure and convenient printing and scanning on the go. Using SecurePrint also cuts down on waste by eliminating repeated print jobs.

Feature Highlight

Reduce Waste: With SecurePrint, your documents are only printed when you are present at the MFD, eliminating unnecessary prints.

Enhance Privacy: Ensure confidential documents remain secure and are only viewed by you.

Scan with Ease: Effortlessly scan, and send documents without needing to return to the MFD.

Share flexibly: Easily distribute your scanned documents to multiple destinations, enhancing productivity and workflow efficiency.
