Notification regarding updates to CSCP's Reportable Ingredients List

This is a notification of an update to [CSCP's Reportable Ingredients List \(RIL\)](#). The RIL contains updated chemicals from the 23 source authoritative lists cited in the [California Safe Cosmetics Act and Cosmetic Fragrance and Flavor Ingredient Right to Know Act of 2020](#) through May 2025.

For your convenience, you will find a fourth tab labeled "Summary of Updates" in the [downloadable spreadsheet](#) that lists all ingredients that were added to or removed from the RIL since the last update.

Product Variant Reporting Instructions Reminder

As a friendly reminder, data submitters must create one product entry for each variant of a product. If any color, scent or flavor of a product has its own unique UPC, you must report each one with its own separate product submission. Enter the name of the color, scent or flavor variant in the "Variation" field and provide its unique ingredient information, UPCs and other information in the other fields of the submission form.

Variation

Only enter a Variation name and it is one of several products of the same line, for example a color, scent, or flavor name or SPF

Strawberry

Company's Own Internal Product ID (optional)

Please enter the name of a **single** color, scent or flavor variant in the "Variation" field for an individual product entry.

Product UPC(s) (Universal Product Code) *

The UPC is the 12-digit barcode number or Amazon ID. Enter multiple UPCs if appropriate for the product. Type or paste the first UPC, hit the "Enter" button, and then repeat. If the product has a 13-digit code, you may enter it here in place of the UPC.

Product's Website URL

You can use the **“duplicate”** feature to save time in creating these **separate** entries for each variation. We encourage you to review your previous product submissions, and make necessary changes to correct these entries, if applicable.

Using the "Duplicate" button helps streamline the process when reporting multiple variants.

You can watch our [video walkthrough](#) of how to create product reports, including a detailed explanation of how to use the duplication function at the 15:09 mark of the video.

Thank you for your attention to this matter, and we appreciate your efforts in maintaining compliance with California’s cosmetics reporting laws.
