# Join Us for a Webinar on School-Located Adolescent Vaccination Events for Spring 2025

Dear Colleagues,

We are excited to announce a webinar on Wednesday, February 12, to support schools, local health departments, or other partners preparing for Spring school-located vaccine events. The webinar will focus on events targeting adolescents for whooping cough, HPV, and meningococcal vaccines. However, even if you're not planning events for adolescents but are interested in school-located vaccine events generally, we encourage you to still attend.

## **This webinar will cover:**

- Basic steps for planning a school-located vaccination event
- An introduction to new web assets, including an updated school-located vaccine event web page and new adolescent-specific resources
- Lessons learned from guest speakers regarding their own Tdap/HPV/MCV4 vaccine event experiences at school.

Please register using the link below.

## **Webinar Details**

**Date:** Wednesday, February 12, 2025

**Time:** 2:00 PM - 3:00 PM, PST

**Audience:** Anyone interested in coordinating adolescent school-located vaccine events or school-located vaccine events in general

### **Zoom registration link:**

If you have any questions or need additional information before the webinar, please email us at [SchoolVaxTeam@cdph.ca.gov](mailto:SchoolVaxTeam@cdph.ca.gov).

Thank you for your school-located vaccination efforts and we look forward to seeing you at the webinar!

CDPH School-Located Vaccination Team
