Save the Date! Critical Conversations Webinar: Vaccine Preventable Diseases – What’s Old Is New Again

Join Dr. Jasjit Singh, Pediatric Infectious Disease sub-specialist at Children's Hospital Orange County (CHOC), who will be reviewing protocols for identifying and managing vaccine preventable diseases that we thought were in the rear-view mirror but are now posing a new threat to our communities (We see you measles, pertussis, Hib and polio!)

Jasjit Singh, MD is Assistant Director and serves as the Medical Epidemiologist for CHOC. Chairing the Orange County Immunization Coalition for a decade was very fulfilling for Dr. Singh, as a multidisciplinary collaborative to keep the kids of Orange County healthy. Dr. Singh recently finished a term as the President of the California Immunization Coalition (CIC) and remains on the Board of Directors. She also serves as the vaccine champion for Chapter 4, American Academy of Pediatrics (AAP).

From Prevention to Protection: Closing Gaps in HPV Vaccination and HPV Cancers in LGBTQ+ Communities

In recognition of Pride month, the St. Jude Cancer Prevention Program will host a virtual seminar, From Prevention to Protection: Closing Gaps in HPV Vaccination and HPV Cancers in LGBTQ+ Communities. The seminar will highlight the differences in HPV vaccination and cancer outcomes experienced by LGBTQ+ individuals. Join us for a moderated discussion with subject matter experts focusing on effective strategies to increase HPV vaccination rates in this population.
