

December 8, 2023

Immunization Reporting Site Open Until December 22, 2023

California Health and Safety Code Section 120375 and California Code of Regulations Section 6075 require that all schools screen students for required vaccinations or valid exemptions and report student immunization status to the California Department of Public Health (CDPH). Instructions for reporting can be found at www.cdph.ca.gov/schoolreporting and the [letter to child care facilities and schools](#).

Our records indicate that one or more schools with 7th grade under your supervision will be in violation of state law for failure to report student immunization status for the school year. **If any of the schools you supervise are closed or do not have 7th grade students this year, please [register for a CAIR Hub account](#) in order to access the Immunization Reporting site to confirm the school's closure or lack of students.** Please also contact California Department of Education (CDE) to correct the school's status for the [CDE directory](#).

Please be aware that unless the delinquent school(s) reports student immunization status to CDPH by **December 22, 2023**, your school name will be referred to CDE for possible disciplinary action. Non-compliant schools with 7th grades will also be listed as such on the CDPH website. If you have questions, contact your [local health department](#) directly.
