### **Suggested Message: Get Your 2024 - 2025 Flu and COVID-19 Vaccines!**

As we head into respiratory virus season, [share messages](#) encouraging everyone 6 months and older to get the updated 2024 – 2025 flu and COVID-19 vaccines. They can even be scheduled during the same appointment! Getting up to date on flu and COVID-19 vaccines is a safe and powerful way to help prevent severe illness and hospitalization.

Schedule vaccine appointments with your health care provider, at a local pharmacy or at [MyTurn.ca.gov](https://myturn.ca.gov).

Check out the [CDPH Flu and COVID-19 Vaccines Toolkit](#) for more resources.

### **Pregnant Persons Need Protection Against RSV, Flu, and COVID-19**

Respiratory Syncytial Virus (RSV) season is nearly here, and the time to start vaccinating pregnant persons against RSV, flu and COVID-19 is now. Vaccination against these respiratory illnesses is critical to protect both the pregnant person and their baby.

Pregnant persons need:

- Updated 2024 – 2025 COVID-19 vaccine if they have not yet received it
- Flu vaccine as soon as possible
- RSV vaccine (ABRYSSVO®) at 32 – 36 weeks gestation, from September to January
- Tdap vaccine at 27 – 36 weeks gestation

Ensuring up-to-date vaccinations is essential for a healthy pregnancy and baby. For more information including common patient concerns and other resources, refer to this [CDPH communication](#).
