Temporary Vaccine Shipment Holds in LA, Pasadena, and Long Beach

Dear Provider,

The CDPH Immunization Branch's thoughts go out to those affected by ongoing wildfires. For providers affected by the wildfires in the Los Angeles region, we had temporarily halted VFC, BAP, SGF, and LHD 317 vaccine shipments in LA County, including the health jurisdictions of Pasadena and Long Beach. Vaccine shipments for Long Beach will resume this week, however, shipments for the other affected areas will resume once conditions allow.

According to our records, you have a pending vaccine order in the affected areas. You will be contacted by someone from our program to confirm if your clinic is ready to receive vaccines and would like your order released, or if you need an urgent vaccine order. You can also reach out to the VFC Program at myVFCvaccines@cdph.ca.gov or call 877-243-8832 for VFC orders, or to the Provider Call Center for all other program orders at ProviderCallCenter@cdph.ca.gov or call (833) 502-1245.

We hope that you and your staff are safe. For more information about vaccine management during a power outage or emergency, please refer to the [VFC communication sent on January 8, 2025](#).

Thank you,

California Department of Public Health, Immunization Branch
850 Marina Bay Parkway
Richmond, CA 94804
