myCAvax: Release 59 Notes for Providers

Outbreak Program

Outbreak Program Access

Providers will be able to access the new Outbreak Program Home page on the myCAvax portal, as well as perform actions on the Vaccine Order, Return and Waste Event, and Excursions pages.

Program Location

Order Cost Column

Providers will be able to see new 'Order Cost' column on the 'Shipment' tab on the 'Program Location' page.

Enhanced Practice Profile Tab

Providers will be able to see enhanced number fields with commas for value over 999 on the 'Practice Profile' tab on the 'Program Location' page.

Storage Unit

Lookup Update

Providers will be able to view storage unit details including Thermometer Model, Storage Unit Brand, Unit Priority, and Unit Grade when hovering over the storage unit lookup on the myCAvax portal.

Vaccine Order

Updated Temporary Closure

Providers will be able to view updated 'Temporary Closure' text on the 'Step 2 - Review Doses Requested and Confirm Additional Details' page in the Order Request flow, clarifying that entering closure dates will hold orders from being sent to CDC for fulfillment without affecting shipping hours.

VFC Enrollment

Increased Upload Limit

Providers will now be able to upload file max size of 60MB on the 'Step 9 - File Upload' page.

Dashboard Page

Renamed Flu Ordering Dashboard Tab

Providers will be able to view the 'Flu & COVID Orders Dashboard' tab renamed to 'Flu Ordering Dashboard' on the 'Vaccines for Children – Dashboard' page

VFC Prebook

Updated Instruction Text

Providers will be able to view updated instructions written in more generic language, rather than Flu-specific language on the 'Step 1 - Request Doses for Products' page on the Prebook flow.

Updated Picklist Options

Providers will be able to view updated options written in more generic language, rather than Flu-specific language on the 'Season Target Not Met' picklist on the 'Step 1 - Request Doses for Products' page on the Prebook flow.
