California Safe Cosmetics Program (CSCP)

Notification regarding updates to CSCP's Reportable Ingredients List

This is a notification of an update to [CSCP's Reportable Ingredients List \(RIL\)](#). The RIL contains updated chemicals listings from the 23 source authoritative lists cited in the [California Safe Cosmetics Act \(CSCA\)](#) and [Cosmetic Fragrance and Flavor Ingredient Right to Know Act of 2020 \(CFFIRKA\)](#) through June 2024.

For your convenience, you will find a fourth tab labeled "Summary of Updates" in the [downloadable spreadsheet](#) that lists all ingredients that were added to or removed from the RIL since the last update. Please note, the [International Agency for Research on Cancer \(IARC\) designation for Talc has changed](#) and clarifies that all Talc is now considered either "probably carcinogenic to humans" or "carcinogenic to humans." Talc is now reportable under CSCA and CFFIRKA, regardless of its form or where on the body it is applied. Please review your products and report any Talc that previously did not meet the reporting criteria.
