Introduction

The Broker Dealer Clearance (BDC) application now supports enhanced Multi-Factor Authentication (MFA) via the BNY Authentication Hub service.

Clients can authenticate using their User ID and Password as the initial factor. Clients have several options for second factors. Second factors can include emailed OTP and Mobile OTP.

One-Time Passwords (OTPs) are sent to the existing email address which is already on file. Additionally, Mobile OTPs can be self-provisioned by client users via the Authentication Hub URLs, shown *below*.

BDC Authentication Hub based URLs

Clients can use the Authentication Hub to logon to BDC with these URLs:

Production: <https://www.clearance.bnymellon.com/bdcui/ClearanceUI.html>

Test: <https://www-catb.clearance.bnymellon.com/bdcui/ClearanceUI.html>

NOTE: Above URLs for enhanced authentication are available in parallel with the existing BDC URLs.
