

Digital Printing Personalization Capabilities

Providing full-color personalized print on a range of caps manufactured at our facility in Auburn, IN

Digital Print Personalization

Provides alternative ways to get your brand noticed as well as the opportunity to communicate directly to your customers via the products you sell to them

Products
suitable
for Printing
Personalization

Key Features

- Multi-color digital ink jet printing technology
- Print text, images, and QR codes with ease
- Fast print speeds, with a high level of control
- Suitable on a range of flat plastic and metal caps/closures

Customer Benefits

- Increase your brand identity and in-store shelf presence
- High-resolution full-color digital print
- Include QR codes to drive customers to your website, initiate 'a call to action', or combat counterfeiting

Specification

- Supplied files required in tiff format – a full print specification PDF will be provided
- Eco-friendly liquid UV ink, generating a reduction of VOCs compared to pad printing
- High efficiency, reducing energy use
- High-speed, 360dpi

Additional Information

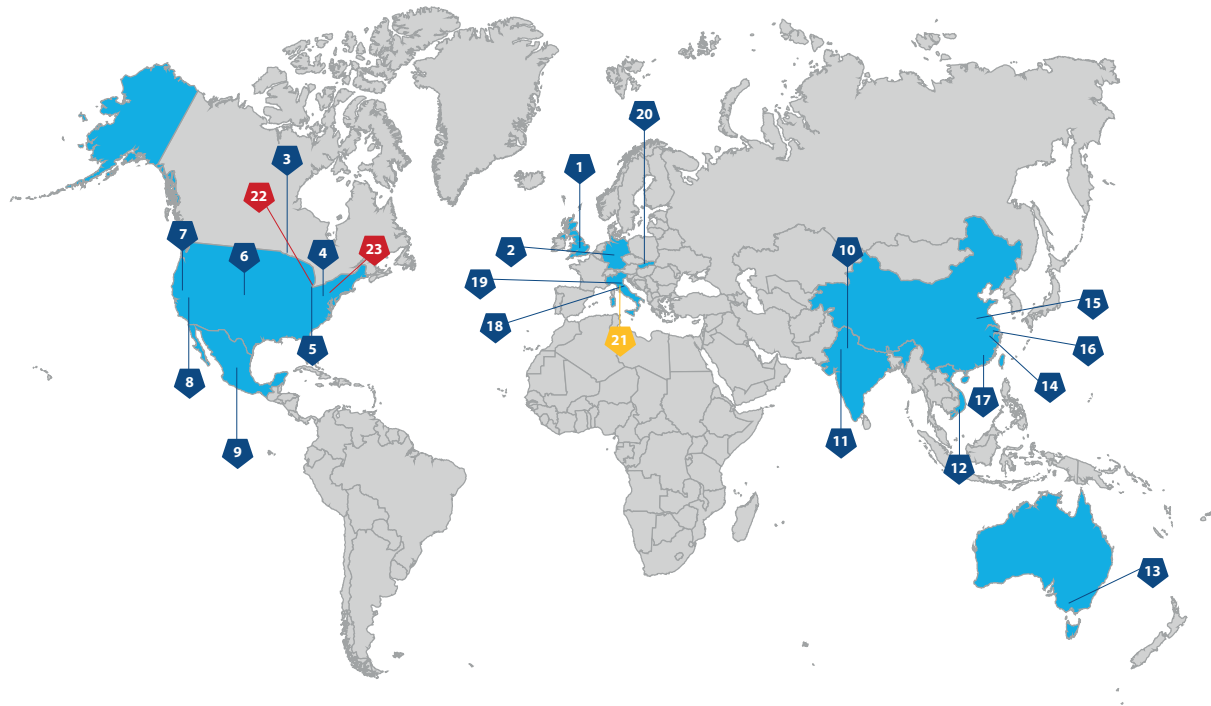

- External printing only – we are unable to print on the inside of our Caps/Closures

Rieke is committed to being an innovative, world-class manufacturer of closures and dispensing systems for the global market. Our reputation for novel design and creativity is reflected in the development of an extensive portfolio of revolutionary products over the company's history including: drum closures, pail and can closures, pump dispensers, and innovative dispensing systems.

Serving a huge range of markets - from food and beverage, pharmaceutical and personal care to paints, solvents, oils and lubricants. Rieke supplies both boutique manufacturers and the world's top brands with drum closures, pump dispensers and custom packaging solutions.

Our extensive catalogue range is complemented by a personal service that enables us to tailor a packaging solution to precise customer requirements. By continually listening to our customers through an ongoing customer satisfaction program, Rieke ensures that we meet customer needs now and in the future.
