

We are TriMas Packaging

As a global company backed by decades of experience, we provide reliable, **innovative packaging systems**, including solutions aimed at solving your **sustainability needs**.

TriMas Packaging consists of a group of well-established packaging brands supported by talented teams with diverse experiences, backgrounds and expertise from around the world. Together, and backed by our parent company, TriMas, we bring you solutions and competencies to meet your current and future needs.

Our rich history goes back 100 years, yet we never cease to look toward the future. That is why we have, and will, continue to acquire businesses that can further strengthen our expertise, expand our customer base and broaden our product range. By aggregating our businesses into a global group, we can provide winning propositions for our customers, employees and key stakeholders. Our combined histories, people and brands make us unique and more powerful together, as your global packaging partner.

We care beyond Packaging

Caring is rooted in our values and is a core part of who we are as a company. **Respect, integrity, passion, commitment and competence** start with our people and extend to our products and processes, our customers, our communities and the environment. We recognize our responsibility to **ensure a better planet for future generations**.

We care about building value for our Customers

Our goal as a global organization is to provide an exclusive and unique experience for our customers built on trust. We leverage our state-of-the-art manufacturing plants, advanced technologies and innovative products to deliver **competitive advantages** to our customers. Our unified global network strives to provide exceptional levels of **innovation, speed to market, quality, delivery** and **customer service**.

We care about our People

We believe **our talented and dedicated global team is the foundation of our success**. We value the cultures, backgrounds and unique qualities of all of our employees and encourage collaboration to drive innovation and performance. We continually prioritize the development of an inclusive and diverse workplace focused on employee respect, safety, talent development and training, and employee engagement.

We care about Operational Excellence and Innovation

We embrace the tools of Kaizen and foster a culture of employee engagement to **drive continuous improvement** in our products and manufacturing processes, as well as **flawless execution of new launches**. We are committed to **outstanding product design** and providing customers with **quality products** that meet or exceed their needs and expectations, striving for operational excellence in all we do.

We care about Sustainability

Working toward a more sustainable tomorrow for our customers, our communities, our businesses and our planet is at the heart of what we do. Sustainability means continuously enhancing our products and improving our processes to **reduce energy consumption, waste and materials**. We are addressing customer, as well as regulatory, expectations for **sustainable product offerings**, while we work collaboratively on initiatives such as sustainable resins, 100% recyclability and multi-use products.

Our Family of Brands

TriMas Packaging serves its **global customers** with its **market-leading brands**, consisting of **Rieke®**, **Affaba & Ferrari™**, **Taplast™**, **Rapak®**, **Plastic Srl**, and **Aarts Packaging**. TriMas Packaging designs and manufactures a comprehensive array of dispensing, closure, flexible packaging and custom solutions for a broad range of end markets including the beauty and personal care, food and beverage, home care, pharmaceutical and nutraceutical, and industrial and agricultural markets.

www.riekepackaging.com

Rieke®

With more than 100 years of experience in the packaging industry, Rieke is a leading designer, developer and manufacturer of specialty dispensing and closure systems for a wide range of markets, including beauty & personal care, food & beverage, home care, pharmaceutical and nutraceutical, and industrial.

Rieke's mission is to protect and enhance your brand by providing high-quality packaging solutions that withstand challenging fulfillment channels, enhance sustainability and are resistant to tampering, damages, leakage, children and counterfeiting. With years of product know-how, consumer insights, technological advancements and manufacturing expertise, Rieke provides innovative and customizable solutions to meet all of our customers' needs.

With manufacturing sites around the world, Rieke's product offering includes dispenser pumps (foamers, airless, lotion, treatment), sprayers (triggers, fine mist, perfume), caps and closures (aseptic beverage caps, food caps, flip top, push-pull, child resistant, jar and pail closures), as well as a variety of related industrial products (drum closures, caps and spouts). Rieke also specializes in products to meet customer's e-commerce and sustainability needs. Some of Rieke's key products include the Flexspout®, VISEGRIP® and TaperStack™ closures, as well as Singolo™, our latest product line of revolutionary fully recyclable, single-polymer dispensing pumps.

www.affabaferrari.com

Affaba & Ferrari™

For more than 70 years, Affaba & Ferrari has led the way in designing and manufacturing cutting-edge caps and closures used in food & beverage, agrochemical and industrial applications.

Acquired in 2020, Affaba & Ferrari continuously invests in developing innovative solutions, advanced technology and production processes, while keeping sustainability in mind. Affaba & Ferrari's innovative product offering includes aseptic and tethered caps for juices, dairy products and sport isotonic/energy drinks, as well as tamper-evident and child resistant caps and closures, flex spouts and more.

With a state-of-the-art manufacturing site in Italy, Affaba & Ferrari uses the latest technologies and lubricant-free power saving machinery to meet sustainability demands and reduce CO₂ emissions. Affaba & Ferrari's highly-qualified engineers focus on reducing plastic consumption, and the disposal and recycling of raw materials and scrap to comply with even the most stringent regulations.

Our Family of Brands

www.taplast.com

Taplast™

For more than 45 years, Taplast has been recognized as a global innovator and manufacturer in the dispensing and closure packaging space for the beauty & personal care, home care and food markets.

Acquired in 2019, Taplast has commercialized several award-winning products targeted to provide commercial solutions and end user benefits in aesthetics, feel, safety and e-commerce delivery. Taplast's innovative product offering includes dispensers, foamers, single and multi-body caps, child resistant caps, jars, specialty coffee dispensing pods and their well-known AllPlastic dispensing pump with patented bellows technology. Additional key products include the Soffio, AllPlastic sprayer and the Rapida, a pump with a foldable nozzle.

With manufacturing sites in Italy and Slovakia, Taplast leverages its deep commitment to engineering and innovation to bring out the optimum in aesthetics and functionality by turning standard products into amazing products that stand out.

www.rapak.com

Rapak®

For more than 30 years, Rapak has been a leading supplier of high-quality flexible bags, dispensing fitments and state-of-the-art filling equipment for bag-in-box packaging applications and commercial dispensing systems.

Acquired in 2020, Rapak's mission is to help customers recognize the commercial, logistical and sustainable advantages of bag-in-box flexible packaging for the beverage, liquid food and non-food industries.

With manufacturing sites in the United States, Rapak's product offering includes standard bags in a wide range of films and sizes, user-friendly dispensing taps, fitments and connectors, as well as the Autokap™ line of semi-automatic and fully-automatic filling machines. Rapak's reliable and high-productivity filling machines are designed to hot fill and cold fill a wide range of fresh, extended shelf life (ESL) and sensitive liquid products. Key products developed over the years include the PCSS bag fitment, PCSS+ line side connector, Mustang™ front push dispensing tap and the DuraBev™ embossed laminate film technology for beverage bags.

www.plasticsrl.it

Plastic Srl

For more than 70 years, Plastic has been a leading designer and manufacturer of single-bodied and assembled caps and closures, primarily for the home care market.

Acquired in 2019 with a manufacturing site in Italy, Plastic has more than 100 closure product designs, including several patented systems for home care product applications, such as laundry and household cleaning products. Other products include push-pull, dosing, pouring, flip top, child resistant and stain-remover closures, as well as closures intended for refill applications and pouches. Plastic's unique flexibility for custom products provides a competitive advantage in the industry.

www.aartspackaging.com

Aarts Packaging

For 80 years, Aarts Packaging has been a leading designer and manufacturer of innovative luxury packaging solutions for prestigious beauty and lifestyle brands, as well as for customers in the food and life sciences end markets.

Acquired in 2023, Aarts leverages its deep commitment to product innovation and engineering to develop unique, highly-customized products that give its customers a distinct competitive edge in the industry. Aarts' innovative product offering includes high-end beauty and fragrance caps and closures including for lip gloss, compacts and nail polish; pharmaceutical jars and dosing containers; and food-related jars, scoops and capsules.

With a state-of-the-art manufacturing site in the Netherlands, Aarts continuously invests in innovative solutions, highly-automated production lines and highly-technical, in-house finishing capabilities including decorative metallization. These investments allow their specialized team to meet the specific and evolving needs of their customers. By leveraging cutting-edge technology, Aarts is able to provide high-quality and efficient solutions that meet the highest industry standards.

Our Markets

We have experience and expertise in **developing and manufacturing** products for a **wide range of markets**. We work closely with our customers to design the **perfect solution** for every packaging need—whether you want to increase **on-shelf presence**, **prevent product leakage** or **tampering**, **improve consumer experience** or you simply want a more **environmentally-friendly** solution.

Beauty & Personal Care

Our high-quality innovative and custom dispensing and closure solutions for skin care, cleansing products, cosmetics and fragrances are sophisticated in design and will dispense your product easily and accurately while providing a pleasing experience for your customers.

Home Care

From surface and window cleaners to detergent and gardening products, our solutions for the home care market offer style, control and convenience for consumers at-home.

Pharmaceutical & Nutraceutical

We work closely with our customers to ensure our solutions for life-changing medications, dietary additives and pharmaceutical products are manufactured in safe and hygienic conditions.

Food & Beverage

Whether for consumer purchase or for use in restaurants, our food & beverage caps, scoops, dispensing pumps and bag-in-box solutions are FDA-approved and specially designed to protect your products from contamination, while improving everyday life for your consumers.

Industrial

From paints and coatings to automotive, agricultural products or industrial drums, our caps, closures and dispensers keep your potentially dangerous chemicals secure for a safe and controlled experience.

Our Products

Our value-added products are designed to **enhance our global customers' ability to dispense, transport** and store their products in an ever-changing marketplace.

Caps

We protect and enhance your brand and reputation with a wide range of caps, including caps with spouts, beverage, child resistant, flip tops, laundry, specialty, push pull and more. Crafted by experienced global engineers, our caps meet a wide variety of requirements and specifications, from safety-critical applications to home and personal care applications.

Closures

Our wide range of press-fit, pull out, screw and specialty closures are designed to meet a wide variety of requirements and specifications, from safety-critical applications to tamper-evident closures to protect your hazardous products. We protect your brand with increased security against counterfeiting and manipulation, ensuring your product is delivered as intended.

Industrial Drum Products

Since introducing the first plug and flange assembly for steel drums in 1921, we provide a broad range of solutions for metal and plastic industrial containers. We manufacture drum faucets, rings, vents, tools and more, for containers ranging from 4 ounces to 55 gallons.

Flexibles

Our mission is to help customers deliver the ideal liquid packaging solution that suits your product, industry, process and sustainability goals. We supply flexible bags, taps, fitments and filling equipment for bag-in-box packaging applications and commercial dispensing systems.

Dispensers

As a global leader in dispensing systems, we prioritize enhancing user interactions while safeguarding the quality of your liquids and viscous products. Our range includes foamers, airless, lotion pumps, treatment pumps, and more.

Sprayers

Using advanced spraying technology, our sprayers are adaptable for your brand with diverse dosing options. We offer everything from fragrance to fine mist, and trigger to nose/mouth sprayers, all customized to your needs with multiple spray and metal-free liquid choices.

Cosmetics

Our cosmetic packaging innovation offers a refined selection that caters to the beauty industry's evolving needs. From the elegance of fragrance caps to the practical design of compacts and the allure of lip-gloss packaging, our products encapsulate both functionality and aesthetic excellence.

Custom Solutions

Leveraging our advanced product solutions and unique sourcing expertise, we identify quality solutions for your brand. Our dedicated teams assist in transforming your ideas into reality, from custom molding and rapid prototyping to low volume production, streamlining your path to market.

Sustainability Commitment

As a global Company, we are committed to building a more sustainable future for our customers, businesses and communities. In pursuit of a circular economy, we strive to:

Innovate packaging that is recyclable

or contains post-consumer resin (PCR)

Operate safely and responsibly

in the communities where our facilities are located

Reduce our energy and water consumption, carbon emissions,

waste and materials in our processes with investments and optimizations

Incorporate renewable energy consumption,

where possible

Support communities

with local initiatives

Sustainability in Action
