

Maximize Your ERP System's Potential with Expert Assistance

An enterprise resource planning (ERP) system is a powerful tool that can transform your organization's processes and efficiency — provided you know how to manage the software program, implement it and operate it.

Those key steps can be challenging, especially if your finance, IT and HR teams are already stretched thin. ERP system success also depends on well-thought-out change management, stakeholder engagement and effective training. How can you be sure to check every one of these boxes?

Get support from experienced technology professionals

Segal's Administration and Technology Consulting (ATC) Practice can help you maximize your ERP system's potential. We provide a full suite of high-quality, customized ERP system consulting services for Workday, Oracle, PeopleSoft and more, including:

Program Management

- PMO/Project Management
- Project Planning and Definition
- Risk Management
- Resource Management
- Integration
- Quality Assurance
- Change Management
- Documentation
- Executive Reporting

Implementation Services

- Business Process Mapping
- System Configuration
- Data Migration
- Testing
- Training
- Deployment
- Post-Deployment Monitoring and Evaluation
- Continuous Improvement

Operations Support

- Current-State Assessments
- Platform Optimization
- Reporting Enhancements
- Staff Augmentation:
 - Developers
 - Business Analysts
 - Functional Lead
 - Technical Lead
- Future Technology Planning

The essential activities outlined above are time consuming. Let us support your team or tackle them for you, freeing your team's time and capacity to focus on other business priorities.

ATC has helped clients to manage change for more than 20 years. Our subject matter experts have decades of experience in organizational change management.

Our team also includes consultants who have practical experience in organizational administration as well as technology expertise.

We'll collaborate closely with you to bridge the gap between your business needs and technological services so you can maximize your investment by taking full advantage of all that your ERP system offers.
