Segal's Three-Pillared Approach to Retirement Income Security

What We'll Cover

Overview of Retirement Readiness

Measuring Retirement Readiness

Retirement Readiness Benefits for Organizations and Individuals

Driving Engagement and Action through Communications and Digital Tools

Wrap-Up and Q&A

An Overview of Retirement Readiness

What is Readiness?

Financial vs
Emotional

Sources of Retirement Income

Importance of
savings has grown
over time

Why Measure Readiness?

Organizations face
consequences when
workers are unable
to retire

Measuring Retirement Readiness

Organizations Benefit from Retirement Readiness Insights

Percent of Working Population

Retirement Readiness Grades

Percent Participating in the DC Plan Match

Individuals Benefit from Retirement Readiness Insights

Increasing your deferral rate from 8% to 11% would increase your readiness grade to an A!

The Key to Successful Engagement Is Meeting People Where They Are

Understand the factors influencing people's mindsets

Leveraging tactics for reaching a diverse workforce

Developing your strategy and continuing to refine communications materials

Today's Reality

of workers believe they could work all the way until retirement and still not save enough to meet their retirement needs.¹

¹ Source: [*"Between a Rock and a Hard Place: US Workers Struggle to Save Adequately for Retirement"*](#) by the Transamerica Center for Retirement Studies.

Factors Influencing People's Mindsets

Outside the workplace

Growing personal and family demands

Global economic uncertainty and rising inflation

Political and societal changes

Environmental shifts and increased natural disasters

Inside the workplace

Technological advancements and fear of job replacement

Employee and employer dynamic changes

Growing demands to meet the vast needs of various employee populations

Shifts to better align with organizational changes

Objectives for Reaching Participants

Build awareness

Get younger workers to buy into the concept of having a secure retirement

Communicate value

Reinforce and reiterate the importance of retirement security, and promote healthy financial habits

Enable decision-making

Help participants understand their income needs, and help them make decisions about how and when to spend their savings

Strong plan design and administrative UX

Leverage New Channels

Decision Support Tools

Great! Let's set aside more money for retirement now. If you do so by August 31, 2023, you'll get the match as soon as it's effective. Increasing your 401(k) contribution is easy and only takes a few minutes. To get started, visit [iThrive](#) and click on "Change 401(k) Contributions" from the left navigation.

And remember, SLB is making a contribution of 2% to your 401(k) no matter what, so you can focus on the money moves you need to make now and get on a path to a solid financial future. If you just make a small, 1% contribution to your 401(k), with SLB's match and additional 2% retirement contribution, your 401(k) can grow significantly over time:

Growth of 1% contribution to 401(k) (Non-pension eligible employees)

Example: Jay
(annual compensation = \$100,000)

Jay continues to contribute \$1,000 each year
(+ SLB match + SLB retirement contribution + 7% annual interest)

Over 50? You can make an additional \$7,500 a year in catch-up contributions.

Who is in your household? (check all that apply) *

- ☐ Me
- ☐ My spouse or domestic partner
- ☐ My child(ren)
- ☐ My parents (or parents-in-law)

Continue

Saving is so important. Do you currently contribute the IRS maximum to your 401(k) Savings Plan each year? *

- ☐ Yes, I save \$22,500 each year.
- ☐ No, but I contribute at least 6%.
- ☐ No, but I contribute from 1% to 6%.
- ☐ No, I don't contribute to my 401(k) Savings Plan.

You're getting a match from SLB, but you could be getting even more. With the new enhancements, you'll get additional contributions from SLB when you save up to 10% each year. What's a reasonable increase you can afford to make? *

- ☐ I didn't realize there was more to be had! Let's go all the way up to 10%.
- ☐ I may be able to increase my contributions by a few percentages.
- ☐ I can increase my contributions by 1% each year.
- ☐ I'm not comfortable contributing more.

SLB 401(k) Savings Plan Decision Support Tool

Welcome! Your SLB 401(k) Savings Plan is a powerful tool for your financial future.

Answer a few questions, and see how your SLB 401(k) Savings Plan can meet your retirement needs.

Sick Leave Benefit

In Episode 2 of the SASMI Sessions, we take a closer look at one of SASMI's most popular benefits—the Sick Leave Benefit. Introduced in 2024, this benefit supports active members when they need time off due to illness, medical appointments, or caring for a sick loved one.

Using Participants' Insights To Drive Your Strategy

Communication: What's working

- 1

Just-in-time communication from Client

 - There were many references to the Open Enrollment email and postcard
- 2

When employees visit information v they visit:

 - HR Direct
 - Carrier website
 - U.S. Benefits

Communication: What isn't working

There's simply **too much information coming from too many places with no cohesive story.**

Almost no one referenced the mailer that had just been mailed to homes.

I don't pay attention to communications like that. I ignore emails and mailers like that and just search for the info I need when I need it. It all changes so often anyway.

It is frustrating to have so many different resources that are similar but not centralized.

Hard to recall [the best communication], there are SO MANY!!!! I am honestly overwhelmed by how much work the siloed nature of how we work causes. You almost have to have a Ph.D. in many services to even use them as an employee.

Good grief. ... It is too many to name. Client. Drs. Cigna and BCBS, since we've tried both. VSP. Castlight. ConsumerMedical. The telehealth app. A zillion companies we don't use. Any real info is buried in garbage and spam.

Driving Retirement Readiness through Strategic Communications

Challenge

Our client enhanced their 401(k) match, but needed a compelling strategy to increase employee awareness, encourage action, and improve retirement readiness across a large and diverse workforce

Approach

- Annual communications roadmap
- Data benchmarking
- Multi-channel "Meet Your Match" campaign with interactive decision support tool
- Interactive decision support tool
- Vendor-integrated communications

Results

- Avg. contribution increased from 6.54% to 10.64%
- 63% increase in contributions among participants who made changes
- 15% of employees increased contributions to maximize their match
- Pensions & Investments first place Eddy Award winner

The bottom line: Successful behavior change requires more than a single campaign.
