

Affordable Care Act Dollar Amounts and Percentages

Many provisions in the Affordable Care Act contain numbers or percentages that are indexed to various measures of inflation. The government announces new numbers at different times of the year and in different publications. The table below assembles these amounts in one place and is current as of June 1, 2026.

Indexed Amounts Affecting Group Health Plans

¹ For 2014 only, the Affordable Care Act's OOP limits were the same as the OOP maximums applicable to a Health Savings Account (HSA) offered with a high-deductible health plan (HDHP). (Space constraints prevent us from showing columns of 2014–2021 data in the table above. Separate documents show data for [2014–2017](#) and [2018–2021](#).) For 2015 and beyond, the Affordable Care Act's OOP limits are not indexed to the HSA/HDHP amounts. The HSA/HDHP amounts are shown at the bottom of the next page for ease of reference.

² An employer may either allow a carryover or offer a 2½-month grace period.

³ The employer shared responsibility penalty is found in section 4980H of the Internal Revenue Code. There are two branches of the employer shared responsibility penalty. The 4980H(a) penalty is based on the total number of full-time employees. It is triggered if the employer fails to offer coverage to a certain percentage of its full-time employees and one full-time employee receives subsidized Exchange/Marketplace coverage.

⁴ The 4980H(b) penalty is based on the number of full-time employees who are not offered affordable, minimum value coverage by the employer and who receive subsidized Exchange/Marketplace coverage instead of employer coverage.

⁵ Revised federal poverty guidelines are usually released in late January of each year. They apply to Exchange/Marketplace calculations of the premium assistance tax credit for the following year (e.g., the FPL published in the January 17, 2020 *Federal Register* (\$12,760) is used to calculate the premium assistance tax credit for 2021). Higher amounts apply to individuals living in Alaska and Hawaii.

⁶ A catch-up contribution of \$1,000 is allowed if the individual will be age 55 or older at the end of the year and is not enrolled in Medicare.

⁹ PCORI stands for the Patient-Centered Outcomes Research Institute that is partially funded through the comparative effectiveness research fee. This fee is based on the plan year (not the calendar year). The chart illustrates the amount and payment deadline for a calendar-year plan.

¹⁰ The Further Consolidated Appropriations Act enacted in December 2019 (Public Law 116-94) extended these fees through plan years ending on or before 9/30/29.
