Verosoft

Scalable Asset Management Solutions with Mobile Versatility

Why is scalability important for your future growth?

Driving Growth and Innovation in Asset Management

We provide seamless Enterprise Asset Management (EAM) solutions, empowering you to manage assets more efficiently, streamline operations, and scale globally. Our flagship product, The Asset Guardian (TAG), and other scalable solutions, are designed to meet the needs of medium-to-enterprise businesses in high-growth sectors.

Tag
The Asset Guardian mobi

A leading EAM solution fully embedded in Microsoft Dynamics 365 Business Central.

cirrusforms

Digital forms solution designed to streamline data collection and improve workflow efficiency.

DocStash

A secure document management add-on for Microsoft Dynamics 365 BC and SharePoint, streamlining access, search, and compliance.

Wormhole

The most comprehensive and flexible intercompany master data synchronization tool for Microsoft Dynamics 365 BC and NAV.

Trax

A fully integrated customer service and project management platform for Microsoft Dynamics 365 BC, simplifying workflows and enhancing customer interactions.

Industries We Serve

We have helped companies across multiple sectors achieve operational efficiency with our flexible, scalable solutions.

Manufacturing

Enabling asset management, inventory tracking, and predictive maintenance for improved uptime.

Renewable Energy

Boosting asset efficiency and streamlining operations with IoT integration and advanced asset hierarchy management to drive sustainable energy growth.

Power & Utilities

Streamlining operations and asset tracking for more reliable service delivery.

Transportation & Logistics

Enhancing infrastructure longevity and maintenance efficiency with linear asset and inspection management solutions.

Facility Management

Helping organizations manage physical assets, reduce maintenance costs, and improve regulatory compliance.

READY FOODS

"The Asset Guardian (TAG) helps us ensure that the machines are running well, that we have parts on hand, and that downtime is significantly reduced."

Kendrick Horkley
Project Lead at Ready Foods

What sets TAG Mobi apart?

✓ **EAM Embedded in BC**
No silos, no extra software, just seamless integration

✓ **Smarter Onboarding & Support**
AI-powered training and always-available AI assistant helps your teams and new hires get up-to-speed faster

✓ **Optimized UX for Maintenance Teams**
Intuitive dashboards for easier work order dispatching and execution

Reduce Downtime and Optimize Assets with TAG Mobi

A Scalable EAM Solution Built for Microsoft Dynamics 365 Business Central

Stay ahead of failures, reduce downtime, and maximize asset performance—all with an EAM solution natively embedded in Microsoft Dynamics 365 Business Central.

The Asset Guardian (TAG) is a powerful, all-in-one Enterprise Asset Management (EAM) platform designed to optimize asset lifecycles, streamline maintenance operations, and scale alongside growing organizations. Whether you are in manufacturing, energy, or facilities management, TAG delivers unmatched value without the complexity of third-party bolt-ons.

Key Capabilities

Tackle Downtime with TAG—The Ultimate EAM for Microsoft BC

Traditional EAM systems often create silos, complexity, and frustration. TAG eliminates those headaches with seamless integration and a unified asset management experience inside Microsoft Dynamics 365 Business Central.

Preventive and Predictive Maintenance

Reduce unplanned downtime and extend asset lifecycles through proactive maintenance strategies.

Mobile-First Flexibility

Give field teams real-time access to work orders, forms, and dashboards—online or offline.

Smart Work Order Management

Simplify dispatch, approvals, and execution with a streamlined, role-based interface.

Embedded in Microsoft Dynamics 365 BC

Eliminate data silos and streamline workflows with TAG fully embedded in Business Central.

Asset Health and Lifecycle Monitoring

Deliver better visibility into asset performance and risk factors with real-time condition tracking.

Health and Safety Management

Promote safety and compliance by centralizing safety protocols and reducing risks.

Integration with Power Platform

Unlock low-code customization, automate workflows with Power Automate, and build tailored reports with Power BI—all connected directly to TAG.

New Interface for Easier Adoption and Training

The Asset Guardian (TAG) EAM/CMMS, empowering Microsoft Business Central users for over 13 years, has gotten a new facelift and new AI-assistance tools for easy training and onboarding.

Along with all the features needed to manage preventive maintenance and assets from any device—fully synced to one database—TAG Mobi now offers a more intuitive, user-friendly interface that simplifies work order dispatching and boosts day-to-day efficiency.

Progress Dashboards

Track maintenance activities and team progress in real time.

IoT Monitoring

Monitor equipment status live with IoT integration for proactive response.

AI Assistant

Get 24/7 support with an AI assistant—like a TAG specialist for hands-on teams.

# Efficient Data & Document Management Solutions

Our solutions streamline document management, automate workflows, and synchronize data in real-time. Digital forms can be customized for accurate field data collection, even offline, enhancing efficiency, collaboration, and compliance across any organization.

DocStash

Document storage solution integrated with Microsoft SharePoint for seamless access and management.

- **Centralized Document Management:** Easily store and retrieve documents in one location with quick search capabilities.

- **Microsoft SharePoint Integration:** Seamlessly manage, share, and collaborate on documents within the Microsoft ecosystem.

- **Regulatory Compliance:** Automate document retention to meet industry standards and ensure compliance.

- **Secure Role-Based Access:** Control who can view, edit, or delete documents for enhanced security.

- **Version Control:** Track changes and maintain full revision history for audit and collaboration purposes.

**Secure, compliant, and organized—discover DocStash today!**

Wormhole

Master Data Synchronization Tool

A powerful data synchronization tool that streamlines business workflows and enhances team collaboration. Wormhole turns an ERP into a Tier 1 solution, saving time, reducing Business Central administration costs, and protecting data integrity.

- **Automated Data Synchronization:** Keep data consistent across tenants, databases, and companies with automated sync.

- **Customizable Sync Flows:** Set up bidirectional or unidirectional synchronization to fit business needs.

- **Business Central Integration:** Sync any Business Central tables, including custom extensions, for seamless compatibility.

- **Granular Control:** Define data management rules at the group, table, field, or field value levels for precise oversight.

- **Real-Time Data Consolidation:** Update and merge data from multiple sources in real-time for enhanced reporting and streamlined cross-company workflows.

Integrated Digital Forms Solution

A customizable digital form solution designed to streamline data collection and improve workflow efficiency, perfect for asset management and field operations.

- **Customizable Digital Forms:** Create tailored forms for different departments and processes to fit business needs.

- **Real-Time Mobile Data Collection:** Collect accurate data instantly on mobile devices, even offline, with seamless syncing later.

- **Automated Workflows:** Trigger automatic workflows based on form submissions, streamlining task management.

- **Instant Reporting and Multi-Language Support:** Generate real-time reports and use the forms globally with multi-language capabilities.
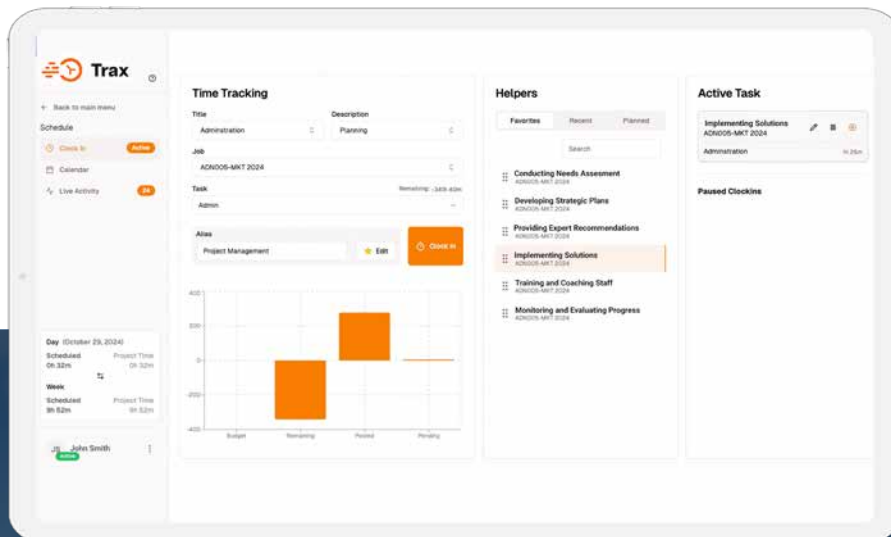

Trax

Customer Service and Project Management Platform

A comprehensive customer service and project management platform seamlessly integrated with Microsoft Dynamics 365 Business Central.

- **Streamlined Project Management:** Manage projects efficiently using Gantt charts and seamless task handling with DevOps job integration.

- **Accurate Time and Job Tracking:** Track time and attendance with mobile clock-in/out functionality linked to project tasks with comprehensive reporting.

- **Optimized Billing Management:** Streamline license renewals, recurring billing, and T&M billing for better financial control.

- **Enhanced Customer Support:** Deliver efficient service with customer and support portals connected to Microsoft Dynamics CRM.

Our Global Partnership Network

Your Gateway to Innovation in Enterprise Asset Management (EAM)

We pride ourselves on the long-standing relationships we've built with our global network of trusted partners. These partnerships allow us to deliver top-tier Enterprise Asset Management (EAM) solutions that help businesses worldwide optimize their operations, achieve sustainable growth, and ensure compliance.

Our flexible partner program allows partners to tap into this dynamic market and offer cutting-edge software to clients in industries undergoing exponential growth.

Proven Solutions

Deliver advanced EAM solutions, including The Asset Guardian (TAG), tailored to medium-to-enterprise businesses.

Lucrative Opportunities

Access new revenue streams with attractive commission rates and discounts on software licenses.

Ongoing Support

Enjoy comprehensive pre-sales, marketing, and technical support to grow your business.

Industry Recognition

Be a recognized partner for delivering scalable, future-ready solutions that meet industry 4.0 requirements.

Market Potential

EAM systems are critical for organizations looking to improve productivity, asset lifespan, and reduce maintenance costs. The global EAM market is projected to grow to 10.8 billion USD by 2026, driven by the need for asset management solutions in industries such as manufacturing, utilities, and public infrastructure.

By becoming a Verosoft partner, you position yourself to meet this growing demand with robust, scalable, and user-friendly solutions designed for modern enterprises in industries experiencing significant growth.
