INITIAL VR HEADSET
SETUP GUIDE

For a video tutorial on this process, scan this QR code

1. Power on the headset. The right side of the headset has the power button. You will need to press and hold the power button for 5 seconds.

2. Power on the controllers by holding the VRX home button for 3 seconds. They will vibrate when powering on.

3. The PIXO Hub App will launch once the headset is powered on.

4. Connect to WiFi. To do this, click the VRX home button.

5. Click the **resume** button by aiming your "laser pointer" and pulling the trigger.

6

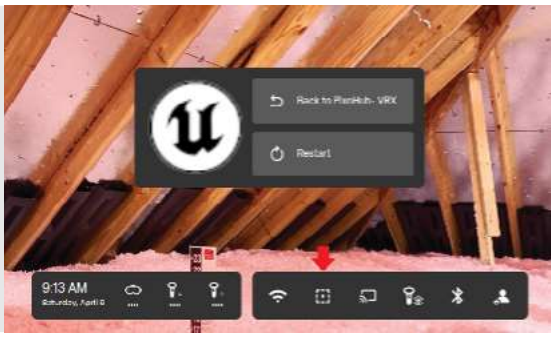

Click on the **WiFi** symbol and select your network to connect.

7

Adjust your play boundary by clicking on the **square dotted line** symbol.

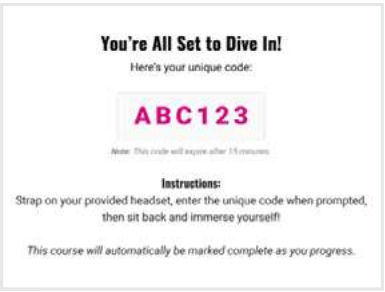

- Click on "**Back to PixoHub – VRX**."
- Follow the steps on the Quick Start Guide!

ACCESSING YOUR TRAINING IS AS EASY AS 1-2-3!

1

Obtain your code from OCU: https://www.owenscorning.com/connect/learning/owens-corning-university

2

In the headset, select the **username** field by pointing your "laser pointer" and pulling the trigger. Enter your code. No password needed.

3

Click on the **graduation cap**, pick "**open**" under your desired module, and enjoy!
