Proven Track Record

Netwoven has successfully executed T2T migrations that include some or all the above workloads and range in size from

- 100 users to 30,000+ users

- 100's of GB to 100's of TB of content

Netwoven provides services directly to its clients as well as being the go-to partner for PWC's MAD team. Our extensive experience and dedicated team provide unparalleled quality in migration experience to our clients.

Netwoven has built out our organization's secure and scalable Microsoft 365 tenant and provided workshops to speed up our adoption and rollout. We used the COVID-19 pandemic and the recent increase in security breaches as opportunities to fast-track our digital transformation to the Microsoft 365 cloud. The migration of our existing mail services and identities to the cloud secures one of our business-critical applications and will begin to transform the way we do our business.
