

# Google Workspace (GWS) to Microsoft 365 Migration

*Experts in migrating any collaboration or security workloads to Microsoft 365*

## CHALLENGES

Migrating from Google Workspace to Microsoft 365 can be complex and time-consuming. Disruption to email, calendars, web meetings, and collaboration can cause business disruption resulting into significant losses. Expertise is often hard to find around the various workloads that include both GWS and M365 across collaboration and security.

## SOLUTION

Netwoven has been in the migration business for over 15 years. Our company has migrated over 15 workloads to Microsoft 365 ranging from GWS, Box, Documentum, Jive, Dropbox, eRoom, Lotus Notes.

Netwoven has an established process to migrate all GWS workloads that include GWS Gmail, Shared Mailboxes, Personal Drive Groups, Shared Drives, Google Meet, Google Chat, Google Sites, and Google Vault

## BENEFITS

- **Reduced Downtime:** Minimize disruption with efficient migration techniques.
- **Enhanced Productivity:** Get your team up and running on Microsoft 365 quickly and easily.
- **Improved Security:** Maintain data integrity and user security throughout the migration.
- **Increased Adoption:** Benefit from our team's user adoption best practices to maximize end user adoption.

## WHY NETWOVEN

By partnering with us, our clients securely collaborate globally, improve business operations, build new products and solutions with deeper insights, reduce cyber security risks, and AI enable their organizations.
