Copilot & Agents - Security, Deployment & Adoption

Netwoven

Power transformation with Copilot & Agents - securely deployed and fully adopted.

What we offer

Our unified Copilot & Agentic AI approach & services combine deep Microsoft expertise, secure deployment, and adoption-led planning to drive scalable productivity - supported by flexible and Microsoft-funded engagement options.

✔ **AI-Driven Workplace Transformation**

Accelerate your journey to AI-powered productivity with Netwoven's comprehensive Copilot & Agentic AI services. Whether you're just starting with Microsoft Copilot or scaling across departments, we help you do it all - from securing your environment to deploying and driving adoption.

✔ **From Secure Setup to Scaled AI Adoption**

Whether you're eligible for Microsoft MCI funding or not, our approach adapts to your needs. We help you build a secure foundation, deploy with precision, and drive meaningful adoption, all with measurable impact.
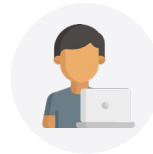

AI for Human Resources

Transform HR with autonomous AI for faster, smarter experiences.

AI for Marketing & Sales

AI empowers sales & marketing teams to leverage insights and focus on strategy, not tasks.

AI for IT & Operations
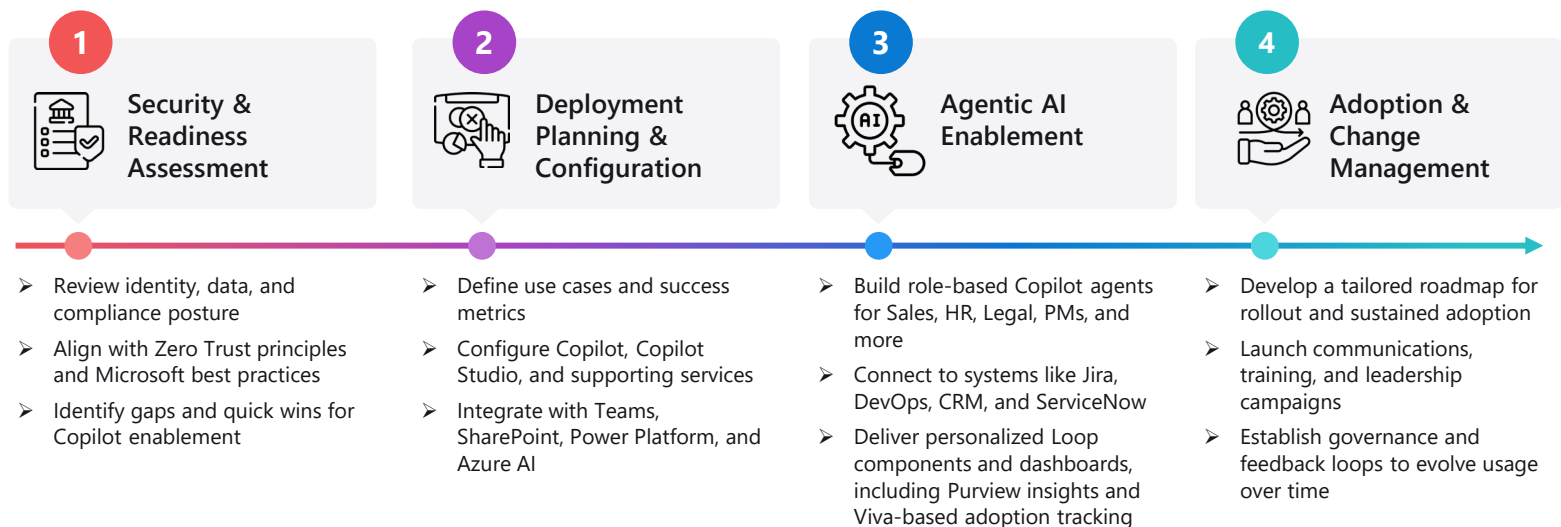

Agentic AI streamlines processes, reduces costs, and boosts operational performance..

AI for your organization

Reimagine business processes, increase efficiency & resilience, and drive innovation & new revenue streams.

The Netwoven approach

1 Security & Readiness Assessment

2 Deployment Planning & Configuration

3 Agentic AI Enablement

4 Adoption & Change Management

- ➢ Review identity, data, and compliance posture
- ➢ Align with Zero Trust principles and Microsoft best practices
- ➢ Identify gaps and quick wins for Copilot enablement

- ➢ Define use cases and success metrics
- ➢ Configure Copilot, Copilot Studio, and supporting services
- ➢ Integrate with Teams, SharePoint, Power Platform, and Azure AI

- ➢ Build role-based Copilot agents for Sales, HR, Legal, PMs, and more
- ➢ Connect to systems like Jira, DevOps, CRM, and ServiceNow
- ➢ Deliver personalized Loop components and dashboards, including Purview insights and Viva-based adoption tracking

- ➢ Develop a tailored roadmap for rollout and sustained adoption
- ➢ Launch communications, training, and leadership campaigns
- ➢ Establish governance and feedback loops to evolve usage over time

Accelerators / Differentiators

- ✓ Copilot Jumpstart Program

- ✓ Microsoft MCI funding eligibility for qualified customers

- ✓ Deep expertise across Microsoft, Microsoft 365, Copilot Studio, Power Platform, Azure AI, and security

- ✓ Proven delivery methodology for governance, training, and adoption

- ✓ End-to-end transformation partner — from strategy to execution
