

Microsoft Entra ID 2-Day Workshop

With hybrid work being more common than ever and employees needing secure access to corporate resources whether on-site or remote, IT departments need to manage and control what users can and cannot do and secure company data. Netwoven is pleased to offer a 2-Day Identity and Access Management workshop on Microsoft Entra ID for organizations to understand the features of Entra ID and how to utilize Entra ID for Identity and Access Management (IAM). This workshop is run by Netwoven IAM experts remotely or on-site and whether you are a Project Manager, Business Analyst, Technical Architect, or Implementation Engineer, you will be able to join and learn. The workshop is a combination of training content and hands-on labs based on real world experiences. It covers the following topics:

Topics

Introduction to Identity and Access Management (IAM)

Active Directory Concepts

Introduction to Entra ID

Authorization and Access

Identity and Governance

Hybrid Identity

External Identities

Identity Security

Application Management
