

Secure Collaboration has never been easier

Introducing Govern 365!

Share sensitive data such as IP, Board meetings, M&A documents, price lists, Financial data, and legal data with internal or external users without any fear of data leakage.

Whether you are doing Capital Fund Raising, Merger Transaction, Supplier Collaboration on a design, or working with your auditors to prepare for an analyst meeting, Govern 365 can keep your content secure.

KEYSIGHT

Govern 365 is a comprehensive solution that has helped us apply governance policies to our Microsoft 365 environment. It has helped ensure the right balance of administrative control and provides our users with optimal empowerment. We no longer have our IT team manually processing requests for new SharePoint Sites and are especially saving a significant amount of time creating sites from our more complicated templates.”
