

MAYO CLINIC PLATFORM\_SOLUTIONS STUDIO

**A program that fast tracks the  
development and deployment  
of digital health solutions**

# Mayo Clinic Platform\_Solutions Studio

**Great news!** There's a way to resolve some of the biggest challenges innovators like you face:

**Data fragmentation**  
and quality

**Lack of transparency**  
into AI solution  
development

**Insufficient**  
**validation methods**  
for solution  
performance

**Complicated**  
**clinical workflow**  
integration

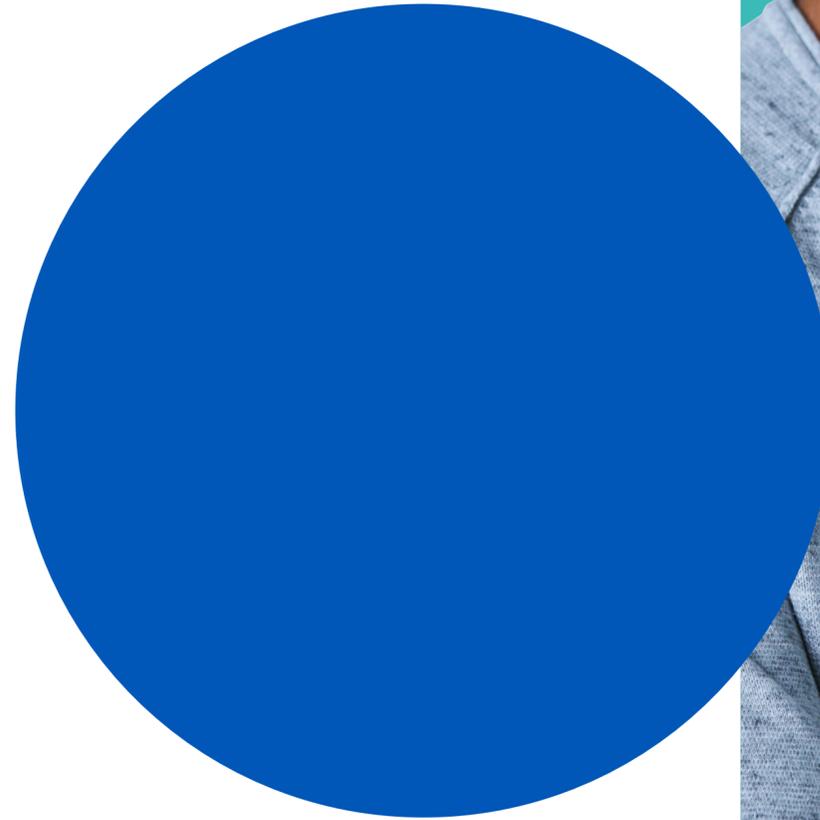

**Complex commercialization**  
processes

Mayo Clinic Platform is changing that with **Mayo Clinic Platform\_Solutions Studio**.

Mayo Clinic Platform\_Solutions Studio is a program designed exclusively to enable digital health companies to accelerate the development and deployment of solutions into clinical workflows while providing credibility to hospitals. With Solutions Studio, you stand apart from hundreds of innovators, connect with hospital leaders and widen your reach, and gain a team of experts who streamline the integration of your solution into clinical workflows.

## Fast-track to success

- **Build credibility and trust** among healthcare providers with an AI solution that is part of a curated collection of innovative and trusted AI solutions.
- **Reduce costs and technical burden** with access to future-proof infrastructure resources to streamline deployment and implementation, all compatible across EHRs.
- **Access a network of key hospital leaders** and health systems with existing relationships to Mayo Clinic across the globe.

# Removing barriers to solution adoption

When you participate in Mayo Clinic\_Solutions Studio, a streamlined and thoughtful process enables your success.

## Initial evaluation

Meet with Mayo Clinic Platform and determine solution fit

## Contracting

Discuss terms and execute definitive agreement

## Qualification

Solution review by clinical, technical, compliance, and risk classification teams

## Onboarding

Technical and commercial onboarding

## Amplified marketing

Promotional support and priority access to a network of key hospital leaders

# Deployment made easy

Mayo Clinic Platform is your partner all the way.

## We ensure:

- **Faster time to market** with a reliable team to operationalize a solution and take it to market quickly
- **Real-time patient and device data ingestion**, data harmonization, and normalization to run models in diverse ecosystems
- **Best-in-class** technical framework and efficient integration into clinical workflows without the need for a large budget or IT team
- **IT security and privacy** protocols compliant with regulatory standards

Mayo Clinic  
Platform\_Solutions Studio:  
**Changing the way AI  
solutions are adopted by  
health systems**

**High standards**

Through our rigorous review and qualification process we are committed to enabling responsibly-developed digital health solutions to integrate into clinical workflows and improve patient care.

**Easy adoption**

Our streamlined process fast-tracks commercialization and adoption of digital health solutions and makes it easier to integrate solutions into clinical workflows.

**Trusted collaboration**

You partner with a world-class organization focused on patient-first innovation.

Find out how your digital health company can stand apart from the rest — take your AI solution from development to deployment with Mayo Clinic Platform\_Solutions Studio.
