

Marsh Global Connect

Transforming international insurance programs with powerful insights

Multinational insurance policies are essential for most global companies. Managing multiple policies across different countries is often complex and time-consuming for these organizations and their insurance partners.

Marsh Global Connect is one of the industry leading platforms that provides complete visibility across all aspects of an international insurance program, and can greatly reduce administrative efforts.

The Marsh online tool provides a repository for all policies, allowing a single view across lines of coverage. This can help identify coverage gaps and allow for the elimination of any duplication in cover.

Insights and data at your fingertips

Marsh Global Connect enables clients to understand the full extent of their insurance portfolio.

Clients can use the tool to determine whether policies align with individual country rules and regulations, and work with their Marsh teams to optimise their policies — ensuring alignment and support for their risk management philosophy.

TIMELY, ACCURATE, AND COMPLETE POLICY INFORMATION

Detailed analysis of coverage and costs, broken down by country, coverage line, and policy type.

ACCESSIBLE VIA LINQ

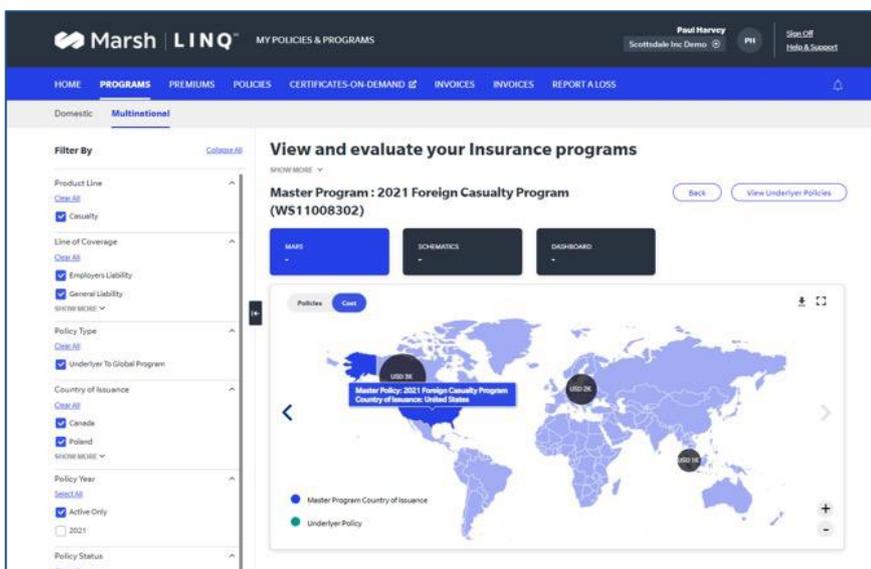

LINQ is Marsh's digital client experience platform, providing powerful visibility and actionable insights across all of your insurance solutions with Marsh.

Actionable Intelligence

Marsh Global Connect provides:

- Comprehensive information about current coverage, including a summary of global programs, underlying policies, and local policies purchased on a standalone basis.
- Detailed analysis of costs, broken down by country, coverage line, and policy type.

With this information we can help clients optimize their programs - eliminating redundant policies, combining policies where desirable, and securing additional coverage where needed.

MARSH GLOBAL CONNECT IN ACTION

A major global technology company, with a presence in 70 countries, wanted to appoint one broker globally to provide them with greater control and governance over their global insurance portfolio.

They evaluated Marsh Global Connect and were impressed with its ability to automate tasks, and enable their risk management team and Marsh to work effectively and efficiently.

Marsh Global Connect provided them with a global view of all of their policies, as well as analytics on their largest areas of cost. Using this information, they and their Marsh teams streamlined their insurance program yielding improved coverage and reduced costs.
