INDUSTRY EXPERIENCE

The logistics industry is in a period of rapid change. Client demands, digital technology, and intense global competition require logistics and transportation companies to reimagine how they engage with clients.

CargoCover™ is the industry's leading online cargo insurance platform, offering convenient and cost-effective cargo insurance and claims administration — a solution from Marsh, the world's leading risk and insurance services firm.

Marsh Specialty's North American Marine Practice has the necessary resources, innovative approach, and industry-specific expertise to help your organization manage its risk.

COVERAGE FEATURES

Cargo insurance provides protection for physical loss or damage to goods during shipping, whether by land, sea, or air.

Our CargoCover™ solution includes options to insure from warehouse-to-warehouse, irrespective of the number of subcontractors involved, and covers common carrier limitations such as: "acts of God," terrorism, strikes, riots, and civil commotion risks.

OTHER NOTABLE COVERAGE FEATURES

- This policy generally responds regardless of which carrier is responsible for the loss or damage.
- Includes coverage for “general average.” Without cargo insurance, this event is frustrating for shippers, as they will be required to put up a bond to have their cargo released, even if it is not damaged.
- Covers goods for the full value declared and will not be subject to the limitation of a carrier’s bill of lading.
- If you are handling third-party cargo, cargo insurance is a value-added service that also helps you manage your cargo liability exposure. CargoCover™ does not subrogate against the party who arranged the cover.
- With “all risk” cargo insurance, there is no requirement to establish liability for a loss only to show that the goods were damaged in transit.
- Claims are handled directly between the insurer and the customer.
